9111895003 | Ahmedabad, India

[learning.brajeshlovanshi@gmail.com](mailto:learning.brajeshlovanshi@gmail.com) | [LinkedIn](#) | [Portfolio](#)

## SKILLS

---

Java, Spring Boot, Hibernate, Microservices, MySQL, Redis, PostgreSQL, JUnit, Python, JavaScript, HTML, CSS, AWS, Docker, Kubernetes, GitLab CI/CD, Kafka, Grafana, Coralogix, Firebase Remote Config

Creativity, Communication, Team Collaboration, Code Optimization, Decision-Making, Adaptability, Leadership

## EXPERIENCE

---

### Software Engineer

Z21 Technoserve LLP

Sep 2024 – Present

Ahmedabad, Gujarat

- Built scalable microservices for a loan app (1M+ downloads), enhancing user engagement by 50% and app ratings
- Engineered REST APIs and backend functionality to achieve sub-150ms latency, reducing screen render time by 40%
- Engaged in product design discussions, improving feature rollout efficiency by 25% and user experience by 15%
- Delivered production releases via GitLab CI/CD and improved incident resolution speed by 40% through Kubernetes, Coralogix and Grafana monitoring

### Software Developer

Mplify Tech Services Pvt. Ltd.

Jan 2023 – Aug 2024

Gandhinagar, Gujarat

- Architected and maintained microservices for high availability and seamless system integration
- Established high-performance REST APIs using Java Spring Boot with 90% code coverage
- Optimized database queries and caching, reducing the API response time by 200-300 milliseconds
- Deployed Dockerized apps on Cloud Run using CI/CD tools, ensuring 99% up-time

## PROJECTS

---

### Post Disbursal Loan App ([Live URL](#))

- Built a BFF-driven backend enabling remote updates of app layout, content, and styles without app releases
- Developed backend features for loan tracking, EMI details, and document workflows; integrated Firebase Remote Config and Kafka for analytics and monitoring
- Built and launched a new user loan journey flow with complete backend ownership — API development, service integration, routing, and device testing via LambdaTest

### JoyReJoy Multi-Vendor E-Commerce ([Live URL](#))

- Built a multi-vendor e-commerce ecosystem enhancing product visibility, vendor engagement, and transactions
- Integrated payment gateway(Razorpay) and shipping aggregator(Shiprocket) for smooth payments and logistics
- Implemented dynamic search and filtering features to improve product discovery

### Bulk Messaging Utility

- Architected a backend-driven email dispatch solution to facilitate high-volume communication for businesses
- Engineered modular APIs for configuring email, composing content, and managing dynamic recipient lists
- Created a relational database schema with optimized relationships, event logging and tracking

## EDUCATION

---

Full-Stack Web Development, Masai School, Bengaluru, Karnataka

Jan 2022 - Dec 2022

Bachelor of Science, DAVV University, Indore, Madhya Pradesh

Jul 2018 - Oct 2021
